Н эзэконо, Мак -19ти, 1985.

By our mail news, we learn that a project for a memorial to the late Sir HARRY PARKES was already being meeted in London. This from the Victor Emanuel and the shere battery is a subject which will be warmly taken up the Admiral's flagship. by the British communities in Hongkong and all the ports of China and Japan. No man ever suffered more or accomplished more for British interests in the Ear East than the late Minister to China, and to re-engraved in a superior style and brought up | do honour to his memory cannot fail to be considered a privilege and pleasure by all who are capable of appreciating the value of a noble and heroi. life. Ryris (Chairman), Hon, F. D. Sassoon, Mesars, H. L. Dalrymple, W. H. F. Darby, A. P. MacEwen, H. Hoppins (Directors), Hon. T. Jackson, D Gillies, T. Armold, J. H. Coz, R. Lyall, A. Mas-Clymont, J. A. Remedios, G. Holmes, J. D. Hutchison, A. G. Morris, E. Burine, W. Legge, D. Bottomley, A. Silveirs, and N. J. Ede

The nature of the alterations in the articles the meeting was called to consider is set out in the following circular:-

Union Insurance Society of Canton, Limited, Hongkong, 4th May, 1885. Dear Sir.—Some of the shareholders have called attention to the wording of Article 161, which appears to andum of Association, which provides that the liability of the members of the Society is limited.

The directors have taken the opinion of Counsel on

this matter, which is to the effect that the language to confirm the resolution of the Article is incorpect. They think it is desirable completes the busines to prevent any possible doubt being felt on this subject and they have therefore called a special meeting of shareholders to pass the necessary amendment. It further appears that in order to make Articles 30/31 relating to Capital and issue of new shares perfectly in conformity with the intention of the Articles Association and to comply with the letter of the Ordinance, these Articles should have been passed at the morn in when the members assented to registra-tion as a limited company instead of a few days after-wards, as was done, and the Board is advised to have hese Sections recast and passed at an extraordinary

nocting of abareholders. The Hoard is, however, of opinion that it is desirable subdivide the shares of the company still further The directors think that eventually this will become ocessary and they therefore take the present oppor tunity of proposing to the shareholders that the shares be at once subdivided, making the subscribed value of each share \$250 and the amount paid up \$25 per share. The Board further suggests for the consideration of the shareholders that the fee payable for transfers as per Article No. 52 be abolished. The transfers are comparatively few and several shareholders, espe jaily ingland, have expressed objections to this payment representing that though small it is very inconvenient. Articles No. 45, 46, and 65 will have also to be amended so as to correspond with the above named alterations. Copies of the proposed resolutions are hereunto annexed.—I am, Dear Sir, Yours faithfully.

Now on the China Station would be able to keep the Russian ships in Vladivostock by means of coaling at Port Hamilton; and that consequently there would be no recurrence of the panics at Singapore and Hongkong. The annexation that has been effected is not a new idea. It has the well-known dislike of the present Government for annexation, and the dread of giving umbrage to its quendam friends in the North, operated to prevent the carrying cut of Sir H. Parkes' proposition to have a new coaling station at Korea. At all events, the idea was shelved until the prospect of war with Russin and the loud outery of our merchants in the East regarding their defenceless state brought it again into consideration; and fortaxately our Government has had the good sense and firmness to take possession of the new l'atation? The original idea, we believe, was to ably larger than the islands enclosing the harsociation, together with the marginal note thereto, the shop, and he was unacquainted with the defendant to go on with his work, and the abandoned, and as it would seem, very wisely.

POST-OFFICE NOTICES

When Correspondence has been mis-sent or delayed (both of which are liable to happen occasionally) all that the addresses need do is to note on the cover, Sent to _____, or Received at 7 p.m., or as the case may be, and forward it, without any other writing whatever, to the Postmaster-General. This should be acted on the first time cause of complaint occurs; it is a mistake to let such matters pass for fear of giving trouble, a course which generally gives more trouble in the end.

Attention is invited to the following par ticulars on the subject of Local Delivery :-LOCAL DELIVERY. - No delivery is attempted on board Ship, at the Peak, Kowloon, Aberdesn, &c., nor at any private house-(even though named in the address) when there is a place of business nearer, at which delivery can be effected (Postal Guide, par. 159)

The above Regulation is not new, but has been the invariable rule of the Post Office for many years. 'Considerable efforts have been made to secure its being generally understood. To prevent, however, if possible, any farther disappointment in the matter, it will appear permanently on the Mail Lists issued twice every day from the Daily Press Office.

The Postal Guide for 1885, revised to date will be found in the Daily Press Directory, p: 393 farge edition, p. 657 small edition. This is the only authorised complete Summary of Postal information published in Hongkong.

The authorised List of Mails issued in connection with this paper is the one published twice each day in our Extra, which is always corrected to a much later hour than that given

HANDLING HORSES. There are very few Englishmen who do not consider themselves as competent to manage a horse as the best horsebreaker. Fortunately it is not with the inexperienced and bombastic riders we have to deal. word to men accustomed to horseflesh may. however, prove of interest, especially as the season is fast approaching when horseback riding will be the fashion. Every person is naturally fitted for some position. and happily, if that sphere of action is-found, the enterprise may succeed. It is hardly possible however, that every man can be a successful horse breeder. Judgment and common-sense are necessary in the selection of genuine stack for mating, and it matters not whether the owner possesses first class mare or stallion if he has not the ability to mate them. The old slinsholl and haphazard methods have been abandoned for a erstem which exhibits greater intelligence in its practical aspects. Farmers realise that success depends upon the recognition and intelligent application of scientific principles. horses must undergo a period of training if they expect to be successful. Breeders now concentrate their energies when formerly they were frequently scattered. To this fact we attribute the introduction and dissemina-"a recent writer well observed. "We are bu! in the infancy of the knowledge of stockbreeding and mating, but we occasionally others. The breeding of choice stock of any man, that not only leads to wealth, but gives smple opportunity for all the energies he ove should be cultivated, and he be encouraged to enter the field and fit himself for the work before him. In the years to come special preparation will be considered - as necessary in all classes of farm work, as in the office or store, and when that time comes, and systematic breeding becomes the rule, we shall witness great improvement in the quality of our horseflesh."-Stockkeeper.
